Facilities Improvement Program

Envision Consultants, Ltd. (Envision), an established small, woman-owned, disadvantaged business enterprise, has been providing responsive, reliable scheduling services to public and private clients for over **25 years**.

At Envision, we understand that precise and detailed scheduling is vital to the success of today's increasingly complex capital projects. We work with agencies, contractors and A/E/C firms to develop customized schedules that facilitate progress and efficiency during all phases.

From conceptual design through engineering, construction and close-out, we create CPM schedules that clearly delineate activities, milestones and important inter-relationships, and monitor progress to ensure that projects stay on track. In addition, we also review schedules to determine their accuracy, clarity and feasibility, and pinpoint potential impediments to progress for Owners and Construction Managers.

Our highly qualified schedulers have years of field experience, and work collaboratively alongside project teams to mitigate potential slowdowns and keep work moving. And, our progress reporting, project status meetings and other communication tools ensure that up-to-the-minute schedule information is shared and put into action. Envision also is an Oracle® Gold Partner and certified trainer, and is experienced in both the Primavera product line and comparable scheduling tools. Our team of senior schedulers train junior schedulers both internally and externally.

Envision has been consistently named to the Philadelphia Business Journal's annual list of Top Women-Owned Businesses and, in 2016, was honored with a Corporate Culture award by SmartCEO. Headquartered in Mullica Hill, New Jersey, Envision has offices in Philadelphia, Pennsylvania, and New York City.

When confronted with complex construction and design issues, you need a partner with the staff and breadth of experience to give you the support you need, when it's needed. **ACCURATE. OBJECTIVE. EXPERIENCED. ENVISION.**
