Envision Consultants, Ltd. (Envision), an established small, woman-owned, disadvantaged business enterprise, understands that communication, connection and collaboration are essential to the success of today’s increasingly complex capital projects.

Our staff of professionals provide a comprehensive slate of public involvement services that inform and engage the community, facilitate meaningful and constructive communication, and drive positive, collaborative progress.

Envision’s services are customized to meet the unique needs of each project and each community. We conduct detailed, objective assessments of the impacted community, and develop public involvement programs that inform and educate, address concerns, and encourage constructive feedback.

Using a cost-effective mix of new technologies, social media, graphic design, GIS mapping, and time-tested, traditional communication tools, we ensure that project details and potential impacts are clearly disseminated. We plan and facilitate public meetings that allow for open, proactive engagement, and develop follow-up strategies that address concerns while keeping planning design and construction moving. We also inform clients to potential challenges, and develop project-specific tools to keep both clients and the community informed as work progresses.

Envision has been consistently named to the Philadelphia Business Journal’s annual list of Top Women-Owned Businesses and, in 2016, was honored with a Corporate Culture award by SmartCEO. Headquartered in Mullica Hill, New Jersey, Envision has offices in Philadelphia, Pennsylvania, and New York City.

Envision has provided reliable, results-oriented public involvement services for over **25 years**. Both public and private clients have turned to us again and again for services that foster meaningful communication, collaboration and, above all, connection. **RELIABLE. RESPONSIVE. EXPERIENCED. ENVISION.**
