Envision Consultants, Ltd. (Envision), an established small, woman-owned, disadvantaged business enterprise, offers a range of customizable training services designed to help clients and their staff make the most of today's technology.

Envision's training is rooted in **30 years** of hands-on experience in the AEC industry, and supported by our 17 years of experience as a former **Oracle® Primavera Systems GOLD Partner** and a Project Management Institute (PMI) Registered Education Provider. This unique combination allows us to provide clients with a thorough and practical understanding of the software they're using, its potential and limitations, and its day-to-day applications in successful project management.

Envision's customized classes are developed and taught by professionals who continue to work on real-world design and construction projects. This depth of knowledge provides trainees with the technical information they need, as well as practical tips, techniques, and best practices to boost functionality, efficiency and productivity. Content included in Envision's courses range from introductory overviews on software and its benefits to drilled-down, detailed instruction on using it to complete specific tasks. Our trainees receive hands-on, highly interactive instruction in creating, analyzing and manipulating project schedules, and in using today's technology to increase efficiency, identify and mitigate potential pitfalls, and maximize communication and collaboration.

Envision has been consistently named to the *Philadelphia Business Journal's* annual list of Top Women-Owned Businesses. Headquartered in Mullica Hill, New Jersey, Envision has offices in Philadelphia, PA.
